

Business Education

Coca-Cola Education Centre, East Kilbride

In November last year all of our senior pupils studying Business Management visited the Coca Cola Plant Education Centre in East Kilbride. This on-site factory visit gave students the opportunity to view Coca Cola's production process and learn about distribution, marketing and communication. This provided a valuable learning experience outside of the classroom and helped students see the business concepts learned in the classroom being put into practice in the business world.

Stock Market Challenge

On 24 January, five of our S3 Standard Grade Business Management pupils took part in the Stock Market Challenge held at the Mitchell Library.

The Stock Market Challenge gives pupils the opportunity to learn how to work as part of a team, make decisions under pressure, take calculated risks and experience the excitement of trading on the Stock Market.

The pupils take on the role of stockbrokers and buy and sell shares - just like brokers.

Our pupils were a credit to King's Park Secondary and all found it a very enjoyable experience.

A note to Parents from Janice Quinn, School Nurse

Just to let you know that I am now based in the school on 2 half-days per week. The Drop-In has also started again and is running during Thursday lunchtimes. This is a confidential service for pupils, allowing them access to information on all aspects of health.

There is also a stall on various health related topics which is held once a month. I am always open to suggestions on what should be included for this.
