What do S2 Physics pupils think?

Some S2 pupils were asked their opinion on the S2 Physics course.

Here is what some of them said.

I think Physics is a great science to choose, you’ll find the experiments interesting.
**Sandy Perrie, S2**

Physics is good but you need to be quite good at maths for bits of it.
**Caleb McGowan, S2**

Physics is hard but when you know how to do it, it becomes interesting.
**Matthew McMillan, S2**

I enjoy the Physics experiments and it is fun to work with other people.
**Kyle Johnston, S2**

I find Physics very interesting and fun. The practical work is so much fun. I am really happy I picked Physics.
**Dylan McInnes, S2**
I have enjoyed Physics because there is lots of active learning. My teacher makes it easy and explains it well.

Ruth Murdoch, S2

Also Newton’s 1st Law was very fun because I got it first time.

Liam Rowles, S2

I like the Physics course. You do a lot of experiments and learn interesting things. The teachers are nice and explain things well.

Ruth Murdoch, S2

Physics is quite fun but can be confusing at times, but really interesting.

Lauren Tait, S2

I am really enjoying Physics. I am enjoying all the topics we have covered and I will definitely pick it the next chance I get.

Adam McNab, S2

I have enjoyed Physics because there is lots of active learning. My teacher makes it easy and explains it well. Also Newton’s 1st Law was very fun because I got it first time.

Liam Rowles, S2

I think the Physics course is great because of the things you learn such as speed and energy. You get to do speed experiments and actually work out how fast you are.

Callum Gordon, S2

I enjoy the S2 Physics course. I enjoy learning about new things however it’s quite hard and takes a lot of thinking.

Aimee Black, S2
